

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL MEMORANDUM

SB 750 – HB 809

April 6, 2016

SUMMARY OF ORIGINAL BILL: Requires the Department of Economic and Community Development to submit the annual report regarding the Tennessee job skills program to the Office of Legislative Budget Analysis, in addition to the Finance, Ways and Means Committees of the Senate and House of Representatives. Authorizes such report to be submitted electronically.

FISCAL IMPACT OF ORIGINAL BILL:

NOT SIGNIFICANT

IMPACT TO COMMERCE OF ORIGINAL BILL:

NOT SIGNIFICANT

SUMMARY OF AMENDMENTS (012952, 015111): Amendment 012952 deletes all language of the bill. Creates the Aeronautics Economic Development Fund, composed of funds appropriated by the General Assembly and gifts, grants, and other donations. Authorizes grants from the Fund to be made in all counties where the Commissioner of the Department of Transportation (TDOT) determines that such grants will have a direct impact on employment and investment opportunities in the future. Authorizes such grants to be made only to local governments or their economic development organizations, other political subdivisions of the state, including airport authorities, or any subdivision of state government. Authorizes such grants to be used to facilitate economic development activities related to aeronautics and related programs and activities. Authorizes TDOT to use up to five percent of money appropriated to the Fund in any given year to offset the cost of program administration, marketing expenses, and program evaluation.

Amendment 015111 adds language to the bill as amended by amendment 012952 to authorize the Tennessee Wildlife Resources Agency (TWRA) to make expenditures from the Wetland Acquisition Fund for acquiring other lands appropriate for acquisition in this state, in addition to wetlands and bottomland hardwood forests.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENTS:

**Increase State Expenditures – Exceeds \$500,000/FY17-18 and Subsequent Years/
Aeronautics Economic Development Fund**

Increase Local Revenue – Exceeds \$500,000/FY17-18 and Subsequent Years

Other Fiscal Impact – To the extent the Tennessee Wildlife Resources Agency purchases additional land as authorized under this bill as amended, there will be an increase in state expenditures from the Wetland Acquisition Fund for any such purchase, and a recurring increase in state expenditures from the Fund for maintenance of such land and payments in lieu of taxes to the local government. Due to multiple unknown factors, the timing and extent of any such increases cannot be quantified with reasonable certainty.

Assumptions for the bill as amended:

- There are no funds appropriated in the Governor’s proposed budget for FY16-17 for the purposes of making grants from the Aeronautics Economic Development Fund. It is assumed that no expenditures will be made for establishing and implementing the program in FY16-17.
- The amount of funding that will be necessary in FY17-18 and subsequent years to successfully accomplish the intent and requirements of such program is unknown. However, it is reasonably estimated that at least \$500,000 will be expended annually by TDOT to implement the program and to provide grants to authorized entities to facilitate economic development activities related to aeronautics and related programs and activities.
- Currently TWRA is authorized to acquire wetlands and bottomland hardwood forests to ensure proper management of such areas. Funding for such acquisitions is derived from a portion of the property transfer tax that is deposited in the Wetland Acquisition Fund.
- According to TWRA, such funding was equal to \$8,644,844 in FY12-13, \$10,247,184 in FY13-14, and \$11,709,427 in FY14-15. Expenditures from the Fund for acquisition and maintenance of such areas were \$5,854,679 in FY12-13, \$5,538,964 in FY13-14, and \$11,226,729 in FY14-15.
- The proposed bill as amended would authorize TWRA to use such funds for acquisition and maintenance of “other lands appropriate for acquisition in this state”, which are defined as areas possessing characteristics necessary for wildlife habitat in furtherance of TWRA’s mission for game, birds, fish, or fur-bearing animal restoration, propagation, protection, management, or for access to such lands.
- According to TWRA, there is no currently anticipated purchase of such land that would be authorized by this legislation.
- To the extent that TWRA purchases such land in the future, there would be an increase in state expenditures from the Wetland Acquisition Fund for any such purchase, and a recurring increase in expenditures from the Fund for maintenance of such land and for payments in lieu of taxes for these properties made to offset any loss of local property

tax revenue, as properties acquired by the state under this statute are exempt from local property taxes.

- Any purchase and purchase price of the property would depend on the outcome of negotiation with the property owner.

IMPACT TO COMMERCE WITH PROPOSED AMENDMENT:

Increase Business Revenue – Exceeds \$300,000/FY17-18 and Subsequent Years

Assumptions for the bill as amended:

- Grants from the Fund will be used by authorized entities to facilitate economic development activities related to aeronautics and aeronautics related programs and activities. It is assumed that private sector businesses will be utilized to provide assistance and administration of such programs and activities.
- As a result, business revenue is estimated to increase by a minimum of \$300,000 per year.
- Grants will be made only in counties where the Commissioner of TDOT determines that such grants will have a direct impact on employment and investment opportunities in the future. However, any such direct impact on employment and future investments cannot be quantified with reasonable certainty.
- Authorizing TWRA to acquire lands, other than wetlands and bottomland hardwood forests, will not have a significant impact on the commerce in the state.
